MERCEDES BENZ CAR CLUB NSW DAY AT OLDTIMERS

Description

Oldtimer Centre held a “tech day” at their showroom in Rydalmere which ran for 2 hours and a BBQ was served. Several speakers offered 60 members a chance to listen to experts discuss repairs on cars, technical information on specific mechanical components and intricate details of looking after your prestige car. We had 3 speakers; Cameron Virtue from CMR Automotive Repairs, Victor Gomes from Vic’s Motor Trimmers, and Franz Boensch from Workshop 255 who only specialises in mechanical work on classic Mercs. It was a great success and we look forward so supporting the club for many years to come.
