

Mercedes-Benz S600 V220

Description

This is a car you simply cannot describe over a computer. It’s the flagship 2001 update series W220 S600 5.8 litre V12 with a genuine 88,000 klms since new. All we can say is that this car is literally unmarked on the bodywork, timber, dash, leather and the suede headlining is like new. We have been told that the previous owner has now purhcased a newer Mercedes Benz, has had the car for years and the Obsidion black with the black leather interior is by far the most popular colour combination and we literally wait years for cars like this one to come up. Rear vanity mirrors, rear electric seats, rear air conditioning and heating in the seats, sun roof, blue tooth, navigation, parking sensors, adjustable suspension, and only 88,000 klms since new which is nothing for this silky smooth V12 beast. Obviously it goes without saying that this is a very rare car and would have been close to $400K when new in 2001 but this is the very best of the W220 series and to be honest if we don’t sell this car it’s probably something we will keep as a collector’s item anyway. We’re so proud of it and will be taking this to the Mercdes Benz Concours d’Elegance this year. We look forward to meeting you in person and spending a decent amount of time showing off this long wheel base S-Class. It’s also going to be registered in NSW for the successful buyer.
