

Mercedes-Benz C200 CDI W204 MY11

Description

The W204 C class vehicles are so well built and engineered that we simply can’t keep enough in stock, as they are so popular. To find a clean update series example in the rare C200 CDI variation is quite challenging.

This Palladium grey car is available at a very respectable price-point for the year and low kilometers, especially when considering it is the sought after diesel, which combine superb efficiency and reliability. It is not uncommon for these engines to reach 1 million kilometers in fleet service as taxi’s and private cars across Europe.

Features include the updated “COMAND” multimedia interface and navigation, dual-zone climate control, Parktronic front and rear parking sensors, LED daytime running lights, Blue-tooth connectivity, power assisted leather/vinyl combination seats.

If you are looking at a C220CDI or a C250CDI, then you should absolutely consider this example. It is the same engine at a slightly lower state of tune, allowing it to stress less and see considerable mileage.

With good service history, multiple keys and a condition that speaks for itself, we strongly encourage you to come in and view this example or one of our other W204 series vehicles if you are in the market for one.
