

Audi A6 4F

Description

What a stunning example of the 2006 new shape Audi A6 2.4 V6 petrol sedan this is with every single service being carried out by an Audi dealer or a specialist. It’s a lovely car all round in a metallic grey with black leather interior and is just one of those cars that you either look at from the outside or sit inside the car and you immediately know it’s been treated like a baby. Registered here in NSW fora full 12 months it was recently traded in on a newer Audi and we’re lucky enough to be offering it for sale from our showroom where we sell a lot of Audi’s. This really is the pick of this new shape with loads of power from the smaller V6 engine without using up a great deal of fuel and good torque from this turbo petrol engine. It’s also regarded as such an easy car to maintain. These cars are loaded with all the great features and have electric seats, dual zone climate control air conditioning, alloy wheels, cruise control and so much more. We’re so proud of this awesome Audi A6 which has only travelled 110,000 klms since new which is very low for this year model. (The Passenger side tail light has been replaced as it had a crack in it).
