Audi A6 4F MY10

Description

What a stunning example of the 2010 new shape Audi A6 3.0 TDi S-Line turbo Quattro diesel sedan with only 64,000 klms and the more modern daytime LED running lights this is and with every single service being carried out by the Audi dealer and a couple of specialists too. It's a lovely car all round in a light metallic champagne with cream leather interior and is just one of those cars that you either look at from the outside or sit inside the car and you immediately know it's been treated like a baby. Registered here in NSW until March 2019 it was recently traded in on a new Audi and we're lucky enough to be offering it for sale from our showrooms where we sell a lot of Audis. This really is the pick of this new shape with loads of power and torque from the diesel engine and such good fuel efficiency too. These cars are loaded with all the great features and have electric seats, dual zone climate control air conditioning, alloy wheels, cruise control and so much more. We're so proud of this awesome Audi A6 which has only travelled around 8,000 klms per year which is very normal. It has factory blue tooth and satellite navigation too!
