

Audi A6 4G

Description

What a superb new shape 4F series 2012 Audi A6 2.0 litre TFSi this is in what has to be one of the most stunning colour combinations and has only travelled 75,000 klms since new. Log books that are from the Audi dealership and a sign of a very good owner is that they have traded a car in with May 2018 registration. We are so obsessed with the light metallic grey with the lighter grey leather interior, alloy wheels that really do suit the car. This is so well equipped from the full leather interior, sun roof, parking sensors, bluetooth, the current MMI system which allows you to stream music and it has it’s own jukebox amongst other things and so much more. This car would have cost just under $80K when new 5 years ago with these options and certainly seems like it has been garaged and pampered by the previous owner. Audi’s llike this just don’t come up all the time and we are so proud when cars in this sort of condition grace us with their presence. Please take out the time to come in to see this car in person and we very much look forward to meeting you soon.
