BMW 530d E60

Description

This superb example of the new shape 2005 (MY06) Carbon Black BMW 530D has a very good service history from new and is in very good condition indeed with 156,000 klms in 12 years. We have sold so many E60 530's that we are starting to become very fussy about what to look for and have some great diagnostic tools to ensure you have a very hassle free experience. This car has travelled 13,000 klms per year since 2005 and has a spare key and a very fussy owner from what we are told from new. The Carbon Black is actually a very dark metallic blue with a lovely grey leather interior you get 17" alloy wheels, factory sun roof, bluetooth, parking sensors, climate control air conditioning and so much more. These turbo diesel engines have an enormous amount of power, low down torque and will hopefully continue to hold their value very well moving forwards.
