

Jaguar XF X250

Description

In 2008 when this stunning Jaguar XF Portfolio came out it was around $100K and here today we are so proud to say that it’s in immaculate condition without any scratches, marks, dents or interior wear. 85,000 klms is nothing for a 10-year-old upgraded 3.0 engine especially considering it’s had every service done by either a Jaguar dealership or a specialist. It is going to be registered in NSW for the successful buyer and the pale metallic champagne with cream leather interior looks simply stunning in every light. The car just stands up and smiles at you and has so many amazing features from the lovely alloy wheels, wood grain interior, cruise control, factory satellite navigation, reversing camera and dual zone climate control air conditioning. We sell loads of Jaguars and are becoming so fussy about how we source and prepare these cars and have to make certain they are excellent both mechanically and cosmetically which this car certainly is. Please take the time to come and see this gorgeous Jaguar in person and be as impressed as we were when we first saw it.
