

Land Rover Discovery 3

Description

In 2006 when the Landrover Discovery 3 was released this was certainly the pick of the 4WD’s on the market and this one has only travelled a genuine 36,000 klms since new. It’s the 4.0 litre 6 cylinder “SE” seriesl 7-seater that has Xenon lights, adjustable independent suspension, dual zone climate control air conditioning, remote locking and a full leather interior, The silver with the charcoal grey leather is by far the best colour combination and being an 06 model with only 36K it really is a stunning vehicle to drive. We sell a lot of this series and are very fussy about the log books servicing history and are very proud to say that this is one of the best things about this car we have for sale; it really does drive ever so well and you should try to come in and have a decent test drive and see for yourself. Alloy wheels, CD player, centre diff, hill descent, cruise control, ABS, and leather steering wheel. Over the past 6 months we have sold a lot of this Disco 3 series and this is one of the best we have had to drive. We look forward to seeing you soon in our showroom.
