

Lexus LS600hL USF46R MY10

Description

This 2010 update series Lexus LS600 Hybrid “L” long wheel base really is one of the best cars in the world. This one has had every single service carried out at a Lexus dealership in Sydney and is immaculate throughout. At $243,000.00 when new this car has a perfect Lexus servicing history and when you consider it has travelled 330 klms per week it’s really nothing for a car like this. It has an unbelievable amount of power, the “new look” front end and the front seats are now fitted with new active headrests as standard, activated by a signal from the airbag ECU in the event of a rear impact.In the rear, outboard seats benefit from new adjustable headrests, along with greater side bolstering for improved hip support. The LS 600hL gains a 19-speaker Mark Levinson Premium Surround Sound System, along with USB connectivity and iPod compatibility. Efficiency is improved by better management of the LS 600hL’s climate control system and throttle mapping, but despite the fuel economy gains, output is unchanged at 327kW and 520Nm. 0-100 kph in 6.3 seconds this metallic blue with cream leather powerhouse is an amazing car to ride in and look at. We are so proud to offer this car for sale and literally are so excited to have one of our favourite cars on the planet in our showroom. NSW registered until the end of September 2018.
