Lexus LX470 UZJ100R

Description

In 2003 when the Lexus LX470 came out it was the newer update series and the Metallic cream with the cream leather interior certainly is the best colour combination and this is a car that from new that has only ever been serviced by the Lexus dealer by the looks of the log book. Good LX's that are under 300K are hard to find and with 207,000 klms this car is still only just starting to get run in. The leather is stunning, the paint is gorgeous and this is a car that you can tell has been very very well looked after. It had the timing belt changed at 150,000 klms which is when it's due. We have a number of 4WD's in stock and these simply sell so well, are super reliable and are one of the best cars to go off road in we are told. This particular example isn't one that we believe has done much of that from looking underneath the vehicle but they are just such a brilliant car with the adjustable suspension, different driving modes and stacks of options. From Blue tooth, reversing camera, sun roof, navigation, electric seats, CD player, dual zone climate control air conditioning and so much more. We're very excited to show you this 2003 model in person which has an amazing log book servicing history from Lexus since new. It has all original manuals and papers.
