Lexus RX350 GGL15R

Description

What excellent value for money these new shape 2009 Lexus RX350's are becoming at under \$30K and this silver SPORTS LUXURY has it all from 7 months NSW registration, a full dealer log book history, it's been a combination of city and country driving since new which is great and it may have travelled a few more kms than some on the Internet but we certainly know what we would prefer and it's a car like this. You get all the great features such as a sun roof, electric chairs, navigation, Xenon lights, reversing camera, memory chairs, woodgrain interior, heated seats with memory, some chrome extras and so much more. When this shape came out in 2009 it was a whole new car and was simply so much better than the previous shape in so many aspects. It's that it was so much more expensive to get a second hand one up until now and these are closely priced to the older shape. 129,000 kms is nothing for a Lexus and we very much look forward to showing off this car which is silver in colour with charcoal grey leather and has all original keys too.
