Like its predecessor, the six-cylinder “Fintail Mercedes” was tailor-made for the character of rallying, which in that era was more like a sporting endurance run. In the very diverse field of participants in the European Rally Championship, the four-door saloon in its top version 220 SE with the 2.2-litre six-cylinder fuel-injected engine represented one of the largest vehicles in terms of its dimensions and the most powerful in terms of its engine output.

Slightly short-stroked and equipped with an overhead camshaft, it was a guarantor for hefty power delivery over a wide rev range

- we are extremely thorough about the sort of cars we buy and go over them with a fine- tooth comb.
- this car will be mechanically checked over and receive a NSW roadworthy permit
