

Mercedes-Benz 450SEL W116

Description

**** Since 1994 our family run business has been specialising in prestige European car sales from our indoor warehouse in Sydney ****

- Stunning example of a rare 6.9 W116 in Milan brown and cream leather interior
- This is a special car we rarely see come onto the market in such condition, kilometres and price. Back in 1978, this was the world's fastest production four-door sedan and used the famous Mercedes Grosser engine
- just had some extensive mechanical work and most of the car repainted bringing it to a pristine condition
- These 6.9 are becoming highly sought after and we can see why. The engine is hand built in Germany (like today's AMGs) with forged crankshaft, connecting rods and pistons, dry sump system and 213 kW / 549 Nm
- Hence why this cars name is derived from its impressive engine
- only 231,000 klms
- this car is a way above average example and we see a lot which are nothing like this car
- Original factory OEM wheels
- carpets, head liner, door trims and wheels are all good original condition
- Back when this top of the range Mercedes was new it cost \$82,000 in Australia. That was as much or more than a three-bedroom house in the inner west suburbs

- This car drives just like it should – a stately ride with strong torque down low and impressive handling for such a large car, especially on highways and perfect for Sunday drives
- we can't wait to show you this immaculate example

- we are extremely thorough about the sort of cars we buy and go over them with a fine-tooth comb.
- this car will be mechanically checked over and receive a NSW roadworthy permit
- we are so excited to show you this fine example and look forward to meeting you in person one day soon

- * winner of 2020 Local Business Awards in the most outstanding automotive category
- * very passionate expert staff have over 26 years of experience
- * over 5,000 prestige motor vehicles sold here in Sydney
- * MTA Members for over 20 years
