Mercedes-Benz 450SL R107

Description

** Since 1994 our business has been specialising in prestige European car sales from our indoor warehouse in Sydney **

- quite simply one of the nicest 1973 Mercedes Benz 450SL's we have seen in years
- Silver with Navy blue MB Tex from 1973 and it was sold new overseas and brought here on something like the tourist delivery programs.
- showing only 79,000 miles and based on its current condition it seems very genuine to us
- the interior seats are new as is the soft top. The previous owner just spent \$16,000 on this car
- paint has a few minor areas that have been touched up and depending on how fussy you are; you could spent money correcting the paint or just leave it like it is.
- quite a bit of very important mechanical work has been carried out on this car; tail shaft replaced as well as the drive shaft, rear diff has been overhauled, the sub frame has come out and the cradle bushes have also been replaced. This really is one of the best W107's we have driven in a long time.
- the hard top is in excellent condition
- head liner is unmarked
- the car drives very well and we will still be sending it to a very

knowledgeable Merc mechanic here in Sydney for a complete going over

- alloy wheels are not marked and the tyres are great
- this car has been owned by an enthusiast we are told
- we only recently sold a similar car with higher mileage and not quite as good as this condition and was asking similar money
- this car can be very easily registered here in NSW for the successful buyer
- the dash is unmarked and has no cracks at all
- there are so many of these on the market that you simply can't compare this car to. If you tried to spend many thousand of dollars on some of those other cars you just wouldn't end up with a car like this. It's original and has been treated so well over the years.

- we are extremely thorough about the sort of cars we buy and go over them with a fine-tooth comb.
- this car will be mechanically checked over and receive a NSW roadworthy permit
- we are so excited to show you this fine example and look forward to meeting you in person one day so
