Mercedes-Benz C200 W204 MY12

Description

What a beautiful Mercedes Benz C200 Blue Efficiency station wagon with only 116,000 klms since new. It was built in late 2011 which makes it an MY12 update series that has the whole new front end, steering wheel, later dash layout with integrated wide screen colour navigation built in to the dash and overall a far better car than its predecessor. The colour is absolutely stunning and is metallic grey and the charcoal interior looks perfect. It has alloy wheels, parking sensors, blue tooth and most importantly a very good log book service history from new. We sell so many W204 series C-Classes that we are really starting to know what to look for and are very proud to say this car ticks all of the important boxes. The paint is lovely, the interior is extremely good, everything from the dials and buttons, head liner, door trims, dash are in extremely good condition and it drives like a new car in our opinion. Please try to take the time to come in to our dealership and have a close look and a drive of this car that has NSW registration until May 2018.
