Mercedes-Benz S350 V220 MY04

Description

Where do you find a long wheel base W220 update Mercedes Benz S350 from 2004 with a Mercedes service history and only 98,000 klms since new? Here at our dealership we love selling cars that the leather is unmarked, the door handles are not worn or stained, the steering wheel controllers are not sticky and the headlights are in perfect shiny condition. When you consider how much the S-Class was in 2004 and how rare a long wheel base must have been as well as the fact that it has only travelled 130 klms per week on average since new this is a very good find. With the wider screen navigation, wood grain steering wheel, newer gear box and in Silver with cream leather interior, factory alloy wheels and a very original car you really have to come and see this car in person to fully appreciate just how good it really is. NSW registration until July 2018.
