cars had

Some important points about the history of this car.....

Major Service was conducted at ~93k kms by Autohaus Hamilton (Porsche Specialist) in Nov-2018;

The new CarPlay enabled head unit was installed in Nov-2018. It is a Kenwood DDX9018. The head unit came with a reversing camera. It supports Carplay & Android Auto on a wired basis. It is advantageous, particularly with the Waze app which offers visibility of police and speed cameras (ideal for spirited driving).

Full clutch replacement was done at ~97k kms by Autohaus Hamilton in May-2019 (first clutch replacement);

Custom headers and exhaust fitted by Hi-Tech Mufflers in Surry Hills Sydney in Sep-2019. The exhaust has helped the engine breathe a lot better. Hi-Tech has made minor adjustments to the sound of the exhaust, they are able to assist the new buyer as well. The exhaust continues to support the exhaust button in the console, enabling the driver to make the car quieter and louder. Replaced suspension with Bilstein B16 OEM suspension for Porsche's with PASM. PASM allows the car's suspension to be stiffened for the track. After Autohaus Hamilton, the car was serviced by Cavaco Motors (old-school Porsche specialists). The car is well known to David Cavaco (who runs Cavaco Motors).

– we are extremely thorough about the sort of cars we buy and go over them with a fine- tooth comb.

– this car will be mechanically checked over and receive a NSW roadworthy permit

– we are so excited to show you this fine example and look forward to meeting you in person one day soon
