Porsche Cayenne 92A MY11

Description

This stunning “new shape” 2011 Porsche Cayenne Diesel is in the most superb original condition and has a lovely set of factory alloy wheels as well as the LED lights which were standard on the MY11 cars. This car came from a dealer here in NSW and has been owned by a fastidious person who may have travelled 204,000 klms since the car was new but most of it has been sitting at 110 kph on the freeway we were told. It has a very good log book service history from new, January 2018 registration and as soon as you get in this car you just smile. The leather is like new, the dash, lights, buttons, dials, door trims and carpets are all in the most superb condition this is a car you need to come in to our dealership in person and see it in person. The colour combination in our opinion is just lovely being white with black leather and the alloy wheels really do look amazing. This engine is just so fuel efficient and we hope you agree that this is a car that will certainly hold it’s value very well moving forwards. Factory wide screen colour navigation, parking sensors and electric seats with memory. What a car and a true credit to the previous owner.
